Name: _____

AI policy, governance & existential risk

1 Strongly disagree 2 Disagree 3 Neutral / unsure 4 Agree 5 Strongly agree

Now is the best time to pause AI. Start ___ R1 ___ R2 ___ R3 ___	The benefits of open-weight frontier AI outweigh the risks. Start ___ R1 ___ R2 ___ R3 ___	The US government can be trusted with superintelligence. Start ___ R1 ___ R2 ___ R3 ___	AI safety research currently accelerates capabilities more than it improves safety. Start ___ R1 ___ R2 ___ R3 ___	AI will be the most important issue in the 2028 elections. Start ___ R1 ___ R2 ___ R3 ___
Future AI systems could deserve moral consideration. Start ___ R1 ___ R2 ___ R3 ___	Chinese progress is mostly distillation. Start ___ R1 ___ R2 ___ R3 ___	Grassroots advocacy is more important than any other political strategy for AI safety. Start ___ R1 ___ R2 ___ R3 ___	There will be a significant software-only singularity. Start ___ R1 ___ R2 ___ R3 ___	The government should grant antitrust exemptions to frontier labs. Start ___ R1 ___ R2 ___ R3 ___
Working at a frontier lab is one of the best ways to reduce AI existential risk. Start ___ R1 ___ R2 ___ R3 ___	An international pause on frontier AI could be effectively enforced. Start ___ R1 ___ R2 ___ R3 ___	**FREE SPACE** AI is important. Start ___ R1 ___ R2 ___ R3 ___	Stronger chip export controls would make the world safer. Start ___ R1 ___ R2 ___ R3 ___	We will get more warning shots. Start ___ R1 ___ R2 ___ R3 ___
We should focus on state regulations more than federal regulations for AI. Start ___ R1 ___ R2 ___ R3 ___	AGI by 2030. Start ___ R1 ___ R2 ___ R3 ___	Lab CEOs are disingenuous with their calls for regulation. Start ___ R1 ___ R2 ___ R3 ___	AI welfare concerns should influence how we train advanced systems. Start ___ R1 ___ R2 ___ R3 ___	Authoritarian governments reaching transformative AI before democratic governments is a bigger risk than losing control of AI. Start ___ R1 ___ R2 ___ R3 ___
A permanent ban on superintelligence would be better than accepting a 10% risk of human extinction. Start ___ R1 ___ R2 ___ R3 ___	The US government should pace the frontier by mandating percentages of compute used for inference. Start ___ R1 ___ R2 ___ R3 ___	Military use of frontier AI should be prohibited. Start ___ R1 ___ R2 ___ R3 ___	A pause is better than a slow down, assuming both are well executed. Start ___ R1 ___ R2 ___ R3 ___	We should prioritize domestic regulation before international regulation. Start ___ R1 ___ R2 ___ R3 ___
